**DECISION SCIENCES CORPORATION  
ANNOUNCES ADDITION OF DR. CHRISTOPHER LEHMAN TO THE BOARD**

San Diego, CA – February 25, 2008 - Decision Sciences Corporation (DSC) announced today the addition of Dr. Christopher M. Lehman to the DSC Board of Directors. Dr. Lehman brings decades of experience in national security affairs and government relations to DSC.

“Dr. Lehman’s vast national security expertise and his unique understanding of the defense and homeland security marketplaces will help to further position DSC as an industry leader in the provision of counterterrorism solutions,” said Rich Smith, Chief Executive Officer, DSC. “We are very pleased to have Dr. Lehman on the DSC team and welcome him to the Board.”

“Countering weapons of mass destruction is the most pressing technical challenge of our time, and I am pleased to say that Decision Sciences Corporation is poised to make an enormous contribution to the improvement of counterterrorism methods. DSC, with its array of technology solutions, including a breakthrough technology which detects nuclear, radiological and other weapons of mass destruction, will be in the forefront of homeland security companies in the years ahead. I am eager to get to work with Rich Smith and the rest of his talented team at DSC.”

Prior to founding Commonwealth Consulting in 1987, Dr. Lehman served in the White House as Special Assistant to President Ronald Reagan for National Security Affairs and was the Director of the Office of Strategic Nuclear Policy at the Department of State before that. On Capitol Hill, Dr. Lehman served as an Associate Staff Member of the Senate Armed Services Committee, working directly for Senator Harry F. Byrd, Jr., and subsequently for Senator John W. Warner. Dr. Lehman earned Masters Degrees in International Security Affairs and Law and Diplomacy, as well as his Ph.D. in International Security Affairs from the Fletcher School of Law and Diplomacy at Tufts University. Dr. Lehman is published widely on foreign policy, national defense and homeland security issues.

**About Decision Sciences Corporation**

At Decision Sciences Corporation we build real world solutions. We are systems integrators, hardware and software developers and scientists united behind a common mission; making the world safer from terrorism.
